[Sensitive skin irritation test completed]
[Skin irritation test completed]

Dual functional cosmetics for whitening and wrinkle improvement

clioly line

1. The Botul-Thera Complex™, containing the new Medipep-6PN developed by SkinMed, is a lifting-specialized peptide complex that helps to lift sagging and drooping skin, creating a more defined facial contour.
2. The all-in-one cream, equipped with an ergonomic guasha applicator that incorporates the techniques and expertise of lifting-specialized estheticians, enables professional meridian lifting care at home.
3. With just 3 minutes of easy use, it helps with lifting, elasticity, and wrinkle improvement not only on the face but also on the neck, and its 24-hour lifting effect has been confirmed through clinical trials.
4. It contains a high concentration of panthenol, making it safe for sensitive skin, and is enriched with skin-friendly ingredients such as pumpkin extract and jojoba seed oil, which help provide a gentle and comfortable guasha massage care.

CliolyBotul-Thera Lifting Mask

The ultimate lifting that powerfully lifts up sagging face!
 #Lifting mask #Double chin, gone in an instant."

[Sensitiveskin irritation test completed]
 [Skin irritation test completed]

Dualfunctionalcosmeticsfor whitening and wrinkle improvement

1. Botul-theraComplex™, containing the new material Medipep-6PN developed by Skinmed, is a lifting-specialized ingredient that helps powerfully lift sagging and drooping skin, creating a sharp and defined facial contour.

2. With an elastic compression bandage, this product focuses on lifting the lower face, especially targeting concerns like double chin and sagging skin, allowing you to easily manage lifting at home.

3. Contains elastin, hyaluronic acid, and human-like collagen to firm up the skin base, and the creamy, nutritious formula keeps dry skin moist and elastic.

4. With just a single use, this mask instantly lifts sagging facial skin, improving double chin and cheek fat. It is a two-in-one functional mask with a low-irritation formula, making it safe for sensitive skin to use with confidence.

Cerabomb Cream Development Background

—— SKINMED specialist's decision for sensitive skin who met on the field!

“Ceramide high content product,
it's difficult to make, but necessarily needed. “

For the past years, I have studied skin diseases at university, met patients who are suffering from dryness every day, listened to their concerns and pain, and tried to improve it together.

Healthy skin starts from the healthy skin barrier.
'Ceramide' is a necessary ingredient to have a healthy skin barrier.
But containing high content of ceramide into a product is very difficult to maintain stability of formulation, good feeling of use, and low price. Therefore, most of the products contains 0.0001% of ceramide or 1%

SKINMED studied several years to make a high content of ceramide product;
finally, we succeeded to contain a high content of ceramide.
As a result, Cerabomb cream was created.

“

If ceramide increases in weakened skin,
the skin barrier gets firm and strong
in order to make a healthy skin.

From CTO 이중훈

CERABOMB CREAM

NMPA

A truly rich of ceramide, 6% of next generation long chain ceramide!
#Cerabomb#Household Cream for all skin types
that need soothing and moisturizing cream.

Daily line

1/ Focused on moisturizing barrier care

Liposomizing ceramide, which is skin-friendly and accounts for 50% of the skin barrier lipid, increases the skin absorption rate to quickly improve the sensitive and damaged skin barrier and suppress moisture evaporation to soften and moisturize the skin suffering from dryness.

2/ Different levels of soothing and regenerating care

6 types of peptides, which are excellent in skin recovery, regenerates the damaged skin to be elastic and plant derived ingredients such as Portulaca Oleracea Extract and Houttuynia Cordata Extract quickly soothe and provide nutrition for a healthy skin.

3/ Genuine safe care prescribed for sensitive skin

All skin types can use with confidence since this product has been proven to be 0.00% non-irritating in the sensitive skin irritation test and skin irritation test, also it is a line that has been prescribed customizing with ingredients that are essential for sensitive skin.

아토피 피부염 환자에 적용한 글루칸과 세라마이드 제제의 유효성 및 안전성에 대한 연구

유창선¹ · 김선희 · 김주덕

숙명여자대학교 원경대학원 향장미용전공

A Study of the Safety & Effect of Products Containing Ceramide, Glucan for Atopic Dermatitis

Human skin acts as a barrier to physical and chemical irritation from the external environment, but the skin of atopic dermatitis patients has reduced a function of skin barrier and moisture retention in the stratum corneum and according to the recent studies have shown that the cause of this disorder is due to a decrease in ceramide.

Graduate

요약 아토피

그리고 개인적 혹은 가족적인 병력을 가진 특히 유전적 소인을 보이는 질환으로 심한 가려움증과 건조증 등을 동반하는 일종의 제발성, 만성적 알레르기성 습진을 말한다. 그 유병률은 매우 흔하여 어린이의 약 9~12%에서 발생한다. 그러나 최근에는 사회, 자연환경의 변화와 음식문화의 변화, 삶의 방식의 변화에 의해서 계속 증가하는 추세를 보이고 있다. 인간의 피부는 외부 환경으로부터의 물리적, 화학적 자극에 대한 방어기능의 역할을 하는데 아토피 피부염 환자의 피부는 각질층에서의 피부 장벽기능 및 수분유지 기능이 감소되어 있고 이러한 기능 장애의 원인으로 최근 연구에 의하면 세라마이드의 감소에 따른 것으로 밝혀지고 있다. 세라마이드는 스펅고신에 지방산이 연결되어 있는 구조를 가지고 있는 스펅고 지질의 일종이다. 세라마이드는 피부 각질층을 구성하는 각질세포간 지질 중 약 40%를 차지하며, 수분 증발을 억제하는 지질 방어막 역할과 각질층의 정연한 구조를 유지하게 하는 기능을 가지고 있다. 피부 각질층은 각화된 세포가 벽돌모양의 다층 구조로 구성되어 있으며 이러한 각화세포는 세라마이드, 콜레스테롤, 유리지방산에 의해 견고히 결합되어 있다. 따라서 이 세라마이드가 함유된 크림이나 연고를 아토피 피부염 환자에 도포함으로써 환자의 피부 장벽기능의 복구에 도움을 주어 아토피 피부염을 치료할 수 있다는 보고가 있다. 본 연구는 아토피 피부염 전용화장품으로서 아토피 피부에서 피부장벽을 복구하는데 기여한다고 증명된 각질 세포간 지질 성분들(세라마이드, 콜레스테롤, 유리지방산)을 포함하는 유역제와 피부 면역조절과 항 염증 효과가 있다고 보고된 베타글루칸, 신이화 추출물, 감초 추출물 등을 포함하는 세럼형태의 액상제품으로 구성된 두 가지 제품을 아토피 피부염 환자에게 도포하게 하여 그 제품의 안전성과 유효성을 확인하여 보았다. 그리고 그 제품이 새로운 시장인 아토피 피부염 전용 보습화장품으로서의 시장진입 가능성을 확인하여 보았다.

Dry and sensitive skin occurs due to a decrease in ceramide, and it's been revealing through varieties of thesis.

Especially, the body content of ceramide decreases with age; therefore, the moisture protection of the skin decreases, and you can feel the skin getting dry more and more.

Ceramide care is essential for healthy skin.

Daily line

for sensitive and dry skin

Main Ingredient

liposomal ceramide x 6 peptides

daily line

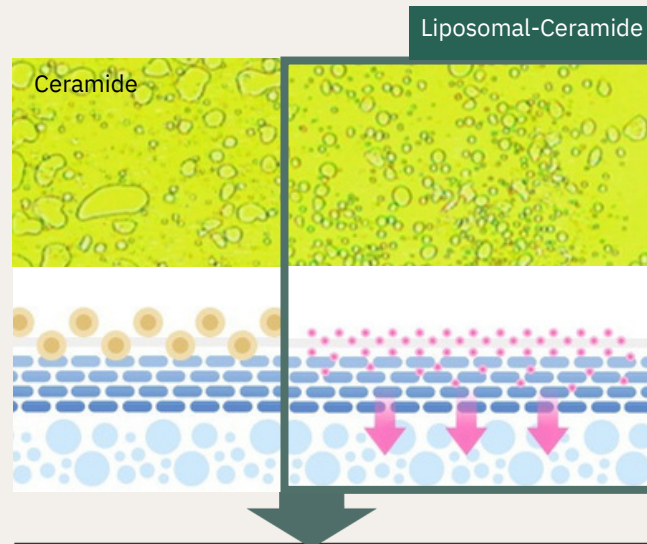

Patent* liposome ceramide

*Patent No. 10-0824958

1. By preventing moisture evaporation, it provides and keeps moisturizing skin
2. Protects the skin from the external stimulus.

By liposomizing the ceramide with large particles, the absorption rate of the skin is increased to further enhance the efficacy effect.

6 different peptides Which is protein that the skin eat

Peptide is a protein that is a collection of amino acids, which is small in molecular size, absorbs well into the skin, and acts as a signal to command the body.

Palmitoylpentapeptide-4	Skin elasticity, Moisture
Palmitoyltriptide-1	Collagen synthesis, Enhance elasticity
Hexapeptide-9	Skin regeneration
Acetylhexapeptide-8	Collagen & Elastin damage suppression
Triptide-1	Skin Conditioning
Coppertriptide-1	Reinforce skin barrier, Wrinkle improvement
